

Classification of Students for Assessing of Tuition Rates

- Students enrolled in TSC courses (i.e., course numbers beginning with either 0,1 or 2) will be assessed TSC Lower Division tuition rates. The residency status of a student determines the rate that is charged for tuition. See the tuition and fee tables for additional information.
- Students enrolled in UTB courses (i.e., course numbers beginning with either 3 or 4) will be assessed UTB Upper Division tuition rates. The residency status of a student determines the rate that is charged for tuition. See the tuition and fee tables for additional information.
- Students enrolled in University Plan courses (i.e., course abbreviation name ends with a “U”) will be assessed UTB Upper Division tuition rates. The residency status of a student determines the rate that is charged for tuition. See the tuition and fee tables for additional information.
- Students enrolled in Graduate courses (i.e., course numbers start with 5 or above) will be assessed Graduate tuition rates. The residency status of a student determines the rate that is charged for tuition. See the tuition and fee tables for additional information.
- Students may take both TSC courses and UTB courses and Graduate courses (concurrently enrolled student). In this case, total tuition and fees will be determined by state regulations applying to concurrent enrollment. Any concurrent enrollment amount adjustments will be manually calculated and entered by the Business Office.
- International Students should follow the Non-Resident Tuition Rate.
